

First Aid Risk Assessment Level 2

– 1Day

Overview

We are pleased to offer First Aid Risk Assessment Level 2. The Health and Safety (First-Aid) Regulations 1981 require employers to provide adequate and appropriate equipment, facilities and trained personnel, to ensure their employees access immediate attention if injured or taken ill at work.

This course is designed for the decision makers, managers and administrators to get appropriate knowledge related to assessing the first aid risks within the work place. The Health and Safety Executive (HSE) has approved the use and presence of first aid at work places. As first aid skills are not restricted to any profession or setting, our first aid course further teaches skills under the first aid manual.

This course has been validated, accredited and awarded 7 CPD points by the CPD Accreditation Group as meeting sector standards.
